

What is the e-Lawyer process for representing me at the United States Patent and Trademark Office?

The process starts with you. You need to contact us. A trademark attorney will discuss your business and your prospective trademark. We will talk about the realities of what you are intending to do and the likelihood of a successful registration. This initial consultation is free.

After we talk things over and you decide to move forward, our upfront flat fees are reasonable and include all the government filing fees. We stick with you throughout the process and are standing by to answer all your questions. The biggest difference between e-Lawyer and everyone else is the availability of our attorneys and our client's access to their materials. We pride ourselves on improving the delivery of legal services to each and every client.

Thank you for visiting the e-Lawyer law firm where we bring modern solutions to the legal world.
